HOBBIES

Coding any time
and in any
Where.

I love developing, I breathe code!

I'm a entry level and pragmatic web developer and designer. I'm a very hard worker, details oriented, self motivated, honest, discipline with great commitment, software engineer.

Focusing on building maintainable, scalable apps with clean architecture as possible.

EDUCATION

Faculty of Computer and Information
Menoufia University.

2019-Present

EXPERIENCE

- .net full stack developer

- 18-9-2022 to 22-10-2022 in

Orial Startup Projects and Startups

- **Slice Pizza built with Razor Pages 6.0 and Onion Architecture.**

-Users can view and buy a pizza.

<https://github.com/mahmmoudkinawy/Slice>

- **EBook library with MVC 6.0 and Onion Architecture.**

-Users can interact with Books.

<https://github.com/mahmmoudkinawy/EBook>

- **ECommerce 'Angular and .net web API'**

- Ecommerce Like Amazon, but still 'under construction' .

<https://github.com/mahmmoudkinawy/ECommerce>

- **Pies Shop Asp.net Core MVC.**

-Shop for selling pies and sweets.

<https://github.com/mahmmoudkinawy/PiesShop>

- Magazine with MVC 6.0 and Onion Architecture.

- Simple Magazine .

<https://github.com/mahmmoudkinawy/Magazine>

- Outfit eCommerce built with .net core web API and React.

-Ecommerce for all types or products.

<https://github.com/mahmmoudkinawy/Outfit>

- Social Media built with .net core web API, Angular and Onion Architecture.

- Users Can view each other profile and send messages to each other.

<https://github.com/mahmmoudkinawy/Media-Application>

- Social Media built with .net core web API “Mediator and CQRS design pattern” , and React and Clean Architecture.

- Users Can make an attendance and other people can interact.

<https://github.com/mahmmoudkinawy/activities>

- Notes about all the previous projects:-

- Most of them implement Repository Pattern.

- Most of them implement Generic Interface and It's Generic Implementation.

- Most of them got a clean DI containers.

- Most of them got a Custom Global Exception Middleware, to make the app fails gracefully if something went wrong.

- Some of them got a 3d Authentication like Facebook, Gmail ... etc.

- All the pictures in the previous apps stored on remote cloud service called 'Cloudinary'.

- Some of them got Stripe as a Payment Gateway.

- I contributed for a public repository here „that code was introduced in FreeCodeCamp and Medium for Guide people to build a Supermarket API ... etc“

- This project got 336 stars on GitHub.

- My contribution: <https://github.com/mahmmoudkinawy/supermarket-api>

- Original Code was here : <https://medium.com/free-code-camp/an-awesome-guide-on-how-to-build-restful-apis-with-asp-net-core-87b818123e28> and it was here too <https://www.freecodecamp.org/news/an-awesome-guide-on-how-to-build-restful-apis-with-asp-net-core-87b818123e28/>

- Code for the pervious article : <https://github.com/evgomes/supermarket-api>
